

# *Carbon footprint statement*

Lessebo Paper strives to limit its impacts on climate change and to carry out all its business activities in a sustainable manner. The company has over 300 years of experience in the paper industry and recognises the importance of producing sustainable, high quality paper.

The urgency of climate change is recognised in the UN Sustainable Development Goals (SDGs). Lessebo Paper believes that the industry has a key role to play in finding sustainable solutions to today's climate challenges and supports the SDGs.

Since 2000, Lessebo Paper has reduced the CO<sub>2</sub> emissions by 87 %. The environmental figures of 2021 mark a progression in the company's strong focus on the responsible management of emissions both to air and water. All figures from Lessebo Paper are accredited by an external auditor and in accordance with current standards.

Emissions related to pulp and paper production 19 kg CO<sub>2</sub>/ton paper
